Professional Summary

MERN Stack Developer with hands-on internship experience in developing responsive full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful API development, frontend-backend integration, database management, authentication, and Git/GitHub. Experienced in building scalable and maintainable applications while collaborating with development teams. Strong understanding of JavaScript, TypeScript, React, Node.js, and modern web development practices, with a focus on clean, efficient, and reliable code.

Professional Experience

Full Stack Developer Intern, 4 Hand Studio 04/2026 – 10/2026 | Remote (Company based in Kochi, Kerala)

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, Node.js, and TypeScript, including CRM applications.
- Built responsive React.js user interfaces and integrated frontend components with RESTful APIs.
- Developed backend APIs using Node.js, Express.js, TypeScript, and Prisma.
- Built tenant-scoped REST APIs and JWT-based authentication for a multi-tenant CRM.
- Performed CRUD operations and managed application data using MongoDB and Prisma.
- Identified and resolved UI and API bugs to improve application functionality and stability.
- Used Git and GitHub for version control, feature-based development, and team collaboration.
- Created feature branches for assigned tasks and used pull requests to manage code changes.
- Collaborated with developers to implement features, resolve technical issues, and complete project tasks.

MERN Stack Intern, Softroniics 06/2025 – 12/2025 | Kozhikode, Kerala

- Developed web application features using MongoDB, Express.js, React.js, and Node.js.
- Built responsive React.js interfaces and connected them with backend APIs.
- Integrated RESTful APIs with frontend applications and managed data using MongoDB.
- Performed CRUD operations, debugging, and testing to improve application functionality.
- Fixed application issues and supported the development team in implementing new features.

Education

BSc Computer Science 08/2022 – 04/2025 | Kannur, Kerala

Pilathara Cooperative Arts and Science College, Kannur University

Higher Secondary Education, GHSS Cheruthazham 06/2020 – 03/2022 | Kannur, Kerala

Skills

Technical Skills

- Frontend: HTML, CSS, TypeScript, JavaScript, React.js, Bootstrap, Tailwind CSS, Ant Design
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, Mongoose, Prisma
- Tools & Platforms: Git, GitHub, VS Code, Postman, Figma

Soft Skills

- Communication
- Teamwork
- Problem-solving
- Time management

Projects

Women's Health Tracker, An Integrated Platform for Women's Health Tracking and Care 11/2025 – 02/2026

- Developed an integrated web application for menstrual cycle tracking, pregnancy progress monitoring, and health data management.
- Implemented features for personalized health insights, cycle tracking, and timely reminders to support user wellness.
- Built a responsive user interface and integrated application functionality using modern web development technologies.
